Discription

We proudly present our mobile sanitary unit. You can buy this mobile sanitary unit in the following different colors blue, green, red and orange. To buy the mobile sanitary unit, we ask you request a quote. Our sanitary units (cabins) are completely vandal-proof made of plastic. The plastic that becomes used for our toilet unit is made of HDPE (High-density polyethylene).

Specifications

The mobile sanitary toilet unit has the following specifications:

- ✓ Fountain set/washbasin with faucet;
- ✓ Standing toilet (fixed);
- ✓ Tork dispenser;
- ✓ Elbow dispenser (soap dispenser);
- ✓ Toilet roll holder;;
- ✓ Reinforced subfloor by means of a 18mm thick concrete plywood plate (attached with carriage bolts);
- ✓ Lock on the inside and lock clips on the exterior;
- ✓ Connection sewer (drain pipe 110mm integrated);
- ✓ Sink drain;
- ✓ Ventilation hood;
- ✓ Flexible connection hoses (no algae growth and can be under constant pressure);
- ✓ All necessary mounting hardware, sleeves, couplings, reducer rings and so on.

Advantages

The mobile sanitary toilet unit has the following advantages:

- ✓ The mobile sanitary unit is easy to use move and pick up with a forklift, our toilet unit are also easy to move without a forklift;
- ✓ The toilet unit is easy to install and has one water supply point through a gardene coupling connection at the rear. For example, it can be connected by using a garden hose;
- ✓ The mobile sanitary unit can be easily connected to the sewer through a 110mm exhaust pipe at the rear. The drain of the sink is connected to the drain pipe of the toilet unit, leaving only one connection is required;
- ✓ The toilet unit is lightweight and weighs only +/- 80kg;
- ✓ Due to the "vandal-proof" quality of the used plastic (HDPE) the mobile sanitary unit has a long lifespan, easy to use and to clean/ maintain.

Discription

The mobile urinal also called the Pee6 is a urinating column, where 6 males have their first need at the same time. This urinal column is made by rotational molding of plastic. The storage tank of this urination volume is 500 litres, which is equivalent to approximately 1,875 urinations. This mobile urinal has a weight of 120 kg (empty). In one truck there will fit 14x a Pee6 pee columns. In this way it offers you 84 pee spots at one location with only one transport truck. The pee crotch has a minimum order number of 6 pieces, this in connection with the rotational molding process of the mobile urinals.

Specifications

- ✔ Height: 2080mm
- ✔ Width: 1690mm
- ✔ Depth: 1120mm
- ✔ Weight: 125kg
- ✔ Storage tank: 500 liters
- ✔ Number of urinations: 1875
- ✔ Quantity in one truck: 14
- ✔ Number of standing places: 6

Discription

Our Urinal + 4-person urination pillars are entirely “vandal-proof” and made of PE (polyethylene). With its integrated lifting eye and handles, this urinal cross can be easily moved on-site at events and/or city centers, for example. The separate bottom protects the tank, ensuring a long lifespan for these urination pillars. Ultimately, this results in low maintenance costs for the rental company!

Specifications

- ✔ Height: 2120mm
- ✔ Width: 1150mm
- ✔ Depth: 1150mm
- ✔ Weight: 95kg
- ✔ Storage tank: 405 liters

Advantages

- ✔ Integrated lifting eye tested with 800kg ballast
- ✔ Can be customized with its own logo on all four sides
- ✔ Equipped with a double handle on all four sides
- ✔ The urination area is equipped with a threaded cover cap
- ✔ The urinal + 4-person unit has two concealed drains at the bottom
- ✔ Features a separate (replaceable) bottom, which protects the tank and extends its lifespan
- ✔ Includes large forklift slots and is suitable for a pallet jack

Discription

Our Stack Urinal + 4-person urination pillars are specifically designed for events and developed to reduce transportation costs for rental companies. As these mobile urinals are stackable, the rental company can transport a much larger quantity of mobile urinals at once. Additionally, the mobile urinals are easy to secure, and due to their dimensions, four mobile urinals take up the same amount of space as one mobile toilet. The Stack Urinal + 4-person unit can be used by four users simultaneously!

Specifications

- ✔ Height: 1600mm
- ✔ Width: 1120mm
- ✔ Depth: 1120mm
- ✔ Weight: 40kg
- ✔ Storage tank: 400 liters

Advantages

- ✔ Easy to load and unload
- ✔ Takes up little space for transportation due to its dimensions
- ✔ Easy to empty with a plastic cap and vacuum hose
- ✔ Lightweight (40kg) and easy to load, even by hand on-site
- ✔ Stackable up to 4 units
- ✔ Available in 5 different colors

Toypek portable shower

Discription

The first model that Toypek.eu now presents for the B2B market is the Toypek portable shower. Our mobile shower cubicles are made entirely of HDPE (high density polyethylene). This means that the portable shower cubicle is made of high-density plastic. They are also completely “vandal-proof”, so that our customers can enjoy lower maintenance costs. In short, our mobile shower is completely tailored to the wishes of renting parties and their end user!

Specifications

The portable shower has been specially developed to meet the wishes and needs of renting parties that use mobile shower cubicles, also known as emergency showers. These portable shower cabins have the following strong points:

- ✔ The portable shower has been developed “vandal-proof”;
- ✔ The bottom is made entirely of PE and is welded all around from top to bottom by means of plastic welding;
- ✔ The portable shower is easy to keep clean due to the smooth sides;
- ✔ Due to the widened handles and their light weight, the portable showers are easy to use and move to any location;
- ✔ The mobile showers hardly leak (95% waterproof) and can therefore also be used in garages;
- ✔ The non-slip floor prevents users from slipping;
- ✔ Features a size of 1 by 1, making them easier to transport and even to moving in narrow passages;
- ✔ The plastic (HDPE) used to produce the mobile shower cabin has a color density of 7 out of 8 points. This means that it has its sharp color for a long time!
- ✔ The door springs used in the Toypek have a good return resilience;
- ✔ There are special advertising spaces on the sides.

✉ info@toypek.eu

Discription

EverGreen Gold uses the most advanced ingredients to naturally subdue fragrance keep control. It breaks down paper and waste to reduce build ups. It reduces usage organic matter and waste disposal costs. EverGreen Gold is non-toxic and 100% organic degradable. The tablets can also be bought as toilet liquid (tons). We recommend this deodorizer (tablets), because it can be used in both winter and summer. These tablets are also suitable for longer periods and hot environments and heavy traffic (such as events). The tablets are easy to use and time reducing for toilet service companies.

Specifications

- ✔ EverGreen Gold- 180 tablets per box;
- ✔ 1 tablet per tank (+/- add 20L of water);
- ✔ Especially for extreme heat and heavy toilet traffic;
- ✔ Perfect replacement for liquid;
- ✔ Reducing time for toilet service companies;
- ✔ 100% biodegradable.
